6. Area restrictions

The Nicodom Libraries (code starting with letter N) are available all over the world for endusers. For other than Nicodom Libraries we may redirect your request/order to local representatives. Area restrictions may apply for distributors.

7. Technical requirements

Your operation system should be Windows 7/32bit, Windows 7/64bit, Windows 8/32bit, Windows 8/64bit, Windows XP or Windows 2000. Contact us for all other operation systems before ordering.

Free USB port for the hardware key (USB dongle) is required.

Be sure the ordered data format is supported (test the demo library).

Be sure that you have the compatible software version (details in the DOWNLOAD section of our webpage).

8. Library format

NICODOM spectral libraries can be purchased in different digital formats depending on software package which you own.

Prior to ordering, please specify the data format compatible with your spectroscopic software. We can deliver in more than 10 different formats.

X = Format Code in the product Code, replace the letter X by the format code.

Example:

NDPAP-X Library in Unspecified Format, you have to replace X by the format code, otherwise we deliver in universal *.pdf format

NDPAP -1 : Library in Thermo/Nicolet/OMNIC format

NDPAP -2 : Library in Bruker/OPUS format, etc.

(3- Grams, Bomem, Horizon, Midac, Panorama, 4- Spectracle/HyperIR, 5- Mattson/Winfirst, 6-Shimadzu/IR Solutions, 7-Perkin Elmer, 8-KnowItAll/HaveItAll/Searchmaster, 10-Varian Resolutions)

Visit the „Download“ Section of our web for details and format selection.

If you do not possess any spectroscopic software, we can deliver in universal *.pdf format – code X (for free Acrobat Reader).

9. Third Party Software

NICODOM spectral library is a set of data (spectral curves with description) which can be processed by third party software owned by customer (special spectroscopic software or Acrobat Reader). Processing of NICODOM Data (display options, search algorithms, search for peaks, interpretation, text search etc.) is determined by features of third party software. Conformity of library spectra with customer spectra is influenced by quality of customer spectra. Please download the demo library to understand what are you ordering – the full version just will have more spectra. We do not deliver third party spectroscopic software.

10. Demo Libraries

Download the example libraries to verify what format is compatible with your software package. If you do not specify the format, we will deliver the library in *.pdf format.

Contact us to get the installation code.

Please note that some of the libraries are available only as books or pdf files. Details can be found at our webpages.

11. Software Protection System

The NICODOM IR Libraries are copy protected. The Library Licence is fixed to a hardware key „USB Dongle“ supplied by Nicodom (transferable device similar to USB flash memory, price 39.- EUR). Free USB port is required to use the Nicodom Libraries. Library can be installed on more computers, the hardware key can be physically transferred between computers, the library works on computer where USB dongle is inserted. One dongle = one licence fee. You cannot order more dongles if you buy one licence.

12. Multiple licence

See previous paragraph for the standard solution. To use the protected Nicodom IR Libraries on more computers without limitation (at the same time), additional licence is required. Contact us for details (reduced fees).

13. Transportation - CD

- a. Air mail package (standard). EU: 2-4 working days, Asia, North and South America, Australia, Africa: 5-10 working days
- b. Other transportation options can be suggested by customer and must be covered by customer.

14. Books

Printed books are printed hardcopies of the libraries, shipment costs will be charged (depending on weight and location, contact us for the shipment costs of your order)

15. Licence Agreement

By installing, copying, or otherwise using the SOFTWARE, you agree to be bound by the terms of the Nicodom Software Licence Agreement. The licence Agreement is a part of the software installer, you must accept it to proceed the software installation. If you do not agree to the terms of Nicodom Software Licence Agreement, do not install or use the SOFTWARE.

16. Fees
